III. Supplemental Data for Business and Occupation Tax – Commercial Rental Property Gross Receipts	
IV. Property Data from Monongalia County Assessor's Office	

May 6, 2019

We were engaged to assist the City of Morgantown, West Virginia (the "City") in assessing the potential property annexation of specified surrounding areas. Our consulting services included the collection, compilation, reporting and analysis of data in regards to determining the impact on the proposed annexation area resulting from any newly applicable City taxes and fees, as well as the impact on the City's current municipal services.

Objective and Scope

The objective of our engagement was to gather and summarize information regarding:

- the direct impact of City taxes and fees on the businesses, residences and other property owners within the proposed annexation area, and
- the budgeted increase in the cost of City services as a result of serving the additional annexation area.

Our work was limited to the above stated scope and did not attempt to quantify other possible costs incurred or benefits derived by the affected businesses and property owners as a result of annexation. Further, this engagement was not intended to result in an opinion, or any other form of assurance, on the effectiveness of the outcomes of annexation.

Information Obtained and Observations

Data regarding the individual properties within the annexation area was obtained from the Monongalia County Assessor's Office and provided to us by the City. See Appendix IV. We performed procedures to identify the various tax and fee components applicable to this analysis, which are presented below. We also performed procedures to identify any City services that would be affected by an increase in service area through this proposed annexation. We then performed research, analysis and calculations to estimate potential amounts attributable to each tax, fee or service component within the annexation area. Our findings are summarized below.

Summary of Results – City Taxes and Fees

We identified the following taxes and fees that would be new assessments to the businesses, residences and property owners within the proposed annexation area:

1. Business and Occupation Tax – Gross Receipts
2. Safe Streets and Safe Community Municipal Service Fee

3. Business and Occupation Tax – Commercial and Residential Rental Property Gross Receipts
4. Ad Valorem Property Tax - Municipal Levy
5. Fire Protection Service Fee

The estimated annual proceeds from each of these revenue streams, based on rates in effect the date of this report, is presented in Exhibit 1 and totals \$7,807,742. An overview of the calculations prepared for each tax or fee is presented below:

Business and Occupation Tax – Gross Receipts (Non-rental Business Activities)

The Business and Occupation Tax is filed by all businesses located within the City of Morgantown and is based on gross receipts of the business. Tax rates range from 0.15% to 2.0% depending on the type of business being conducted.

In order to estimate the amount of tax the City may receive as a result of the proposed annexation, a listing of all businesses located within the proposed annexation area was compiled by the City and reviewed by us. The listing identified 367 businesses within this area, of which 26 were considered to be tax-exempt and not subject to the Gross Receipts Tax. The City classified each business by industry and applied the applicable tax rate based on the tax return. We verified the tax rates by comparison to the tax return instructions and considered the reasonableness of the business classifications based either on the name or general awareness of the business or, in some cases, on an Internet search.

Estimated gross receipts for these businesses was estimated based on a variety of sources, including public filings, comparison to similar businesses located within the City limits (and for which the City had available receipts information), as well as Internet research using Manta.com. In some cases, these approaches were combined and applied to similar businesses in the same industry class, with judgmental adjustments based on perceived differences in size of the businesses in the proposed annexation area relative to known comparables.

The total estimated amount of Business and Occupation Tax resulting from gross receipts (excluding property rentals, which are discussed below) was calculated to be \$2,587,090. We analyzed the results of the calculations and noted that the top 10 businesses accounted for approximately 45% of the total City revenue derived from this tax.

We further noted that 174 of the 367 businesses on the listing (including the tax-exempt businesses) had estimated gross receipts of \$250,000 or less and comprised 5% of the projected tax revenue. We believe these amounts to be a very conservative estimate for such businesses, with little impact on the projected tax estimate.

See Exhibit 2 for the calculations supporting this tax estimate, as well as information regarding assumptions used in the calculations. See also Appendix I for additional detail of the businesses identified in the proposed annexation area.

Safe Streets and Safe Community Municipal Service Fee

The Safe Streets and Safe Community Municipal Service Fee ("MSF") is assessed on employers within the City of Morgantown and is computed as \$3 per week per employee, or \$156 annually.

In order to estimate the amount of MSF the City may receive as a result of the proposed annexation, a listing of all businesses located within the proposed annexation area was compiled by the City and reviewed by us. The listing identified 367 businesses within this area.

Estimated numbers of employees for these businesses was based on a variety of sources, including corporate websites, comparison to similar businesses located within the City limits (and for which the City had available information), as well as Internet research using Manta.com. In some cases, these approaches were combined and applied to similar businesses in the same industry class, with judgmental adjustments based on perceived differences in size of the businesses in the proposed annexation area relative to known comparables.

The total estimated amount of MSF was calculated to be \$1,061,424. We analyzed the results of the calculations and noted that the top 10 businesses accounted for approximately 54% of the total City revenue derived from this fee (including 43% from the top two employers). We noted that most of these employers were listed at Manta.com and the information therein appeared to be reasonable. Additional corroborative information was obtained for the top two employers, including reviewing Form 5500 filings, corporate websites and published news articles. As such, the accuracy of this estimate is largely subject to these top employers, which tend to have more data available. We believe the overall projection is reasonable and generally reliable for purposes of this evaluation.

We further noted that 292 of the 367 businesses on the listing (for which little information was available) had 10 employees or fewer. We believe these amounts to be a reasonable and conservative estimate for such businesses, with little impact on the projected fee estimate.

See Exhibit 3 for the calculations supporting this fee estimate, as well as additional detail regarding assumptions used in the calculations.

Business and Occupation Tax – Commercial and Residential Rental Property Gross Receipts

The Business and Occupation Tax also applies to rental income received from rental properties within the City. The tax rate applicable to rental activity is 1.0% of net rental receipts.

In order to estimate the amount of tax the City may receive as a result of the proposed annexation, a listing of all rental properties located within the proposed annexation area was compiled from the property data located at Appendix IV and segregated between residential and commercial properties.

For residential properties, estimated gross receipts from rental activity was determined primarily through an Internet search using Zillow.com. We were able to identify many of these specific properties and determine the monthly rental rates. In some cases, we noted that condominium properties included at Appendix II as rental properties were actually primary residences of the property owners and were, therefore, not rental properties. This was verified through a review of websites for these condominium plans, which confirmed that some condominiums were available for leasing while others were available for purchase. An adjustment was made to the calculations at Exhibit 4 to account for non-rental condominium properties.

A reduction was made to gross rents to reflect average vacancy rates in the Morgantown area. An occupancy rate of 87% was applied to the calculations based on information available through Department of Numbers, an online resource of public data.

The total estimated amount of Business and Occupation Tax pertaining to net rental receipts from residential properties was calculated to be \$452,335. See Exhibit 4 for the calculations supporting this tax estimate, as well as information regarding assumptions used in the calculations. See also Appendix II for additional detail of the residential rental properties identified in the proposed annexation area and the rental information obtained from Zillow.com.

For commercial properties, estimated gross receipts from rental activity was determined primarily through an Internet search using LoopNet.com. We were able to identify other commercial properties in the same geographic area and obtain relevant information regarding the type of property, square footage and annual rental rates (see Exhibit 5). This information was used to estimate an average rental rate for office/retail property and for industrial/warehouse property.

We noted certain larger properties within the proposed annexation area and included at Appendix III that were assessed by us as highly likely to be owner occupied, non-rental properties. A reduction was made to the square footage used in the calculations at Exhibit 5 to account for these non-rental properties. For the remaining smaller properties not specifically identified above, an additional reduction was made to total square footage to reflect estimates of such space that is also owner-occupied and not held for lease, which would, therefore, not generate any gross receipts tax from rental activity. As the majority of the office/retail space is described as office buildings or multiple occupancy and is likely designed for rental use, we applied a 75% rental rate to this category. For industrial/warehouse property, a lower percentage of 50% was applied to the total square footage to reflect a greater likelihood that such properties may be owner-occupied.

The total estimated amount of Business and Occupation Tax pertaining to net rental receipts from commercial properties was calculated to be \$282,402. See Exhibit 5 for the calculations supporting this tax estimate, as well as information regarding assumptions used in the calculations, including the commercial property rental rates obtained from LoopNet.com. See also Appendix III for additional detail regarding the commercial properties identified in the proposed annexation area.

Ad Valorem Property Tax - Municipal Levy

The Ad Valorem Property Tax – Municipal Levy is an assessment that is based on property values. Properties within the City of Morgantown are divided into two classes:

- Class II - all properties owned, used and occupied by the owners exclusively for residential purposes, or farms that are used and occupied by their owners or bona fide tenants, and
- Class IV – all real and personal property other than Class II within a municipality.

Class II property is assessed a municipal levy of \$0.25 per \$100 of tax-assessed value. Class IV property is assessed a municipal levy of \$0.50 per \$100 of tax-assessed value.

A schedule was prepared for all properties included in the annexation data at Appendix IV, segregated between Class II properties and properties that would be Class IV as a result of annexation. The data at Appendix IV also included property assessment values, and these values were used to calculate the additional Ad Valorem tax to be derived by the City through annexation based on the appropriate tax classes.

The total estimated amount of Ad Valorem Tax pertaining to properties within the proposed annexation area was calculated to be \$2,454,641. See Exhibit 6 for the calculations supporting this tax estimate, as well as additional detail regarding assumptions used in the calculations.

Fire Protection Service Fee

The Fire Protection Service Fee is an assessment that is based on square footage of any structures located on the properties. The fee is an annual assessment of \$0.0766 per square foot. An additional surcharge of \$0.0484 is charged for any square footage of a structure that is located above the fourth floor.

A schedule was prepared for all properties included in the proposed annexation data at Appendix IV. The data included total square footage for each property, and these amounts were used to compute the base fee for each property. The annexation data did not indicate structures that exceeded four floors. However, we note that this surcharge would likely apply to only a few structures within the proposed annexation area and would therefore have an insignificant impact on the total estimated service fee. As such, an estimate for the surcharge was not computed.

The total estimated amount of Fire Protection Service Fee pertaining to properties within the proposed annexation area was calculated to be \$969,850. See Exhibit 7 for the calculations supporting this estimate, as well as additional detail regarding assumptions used in the calculations.

Analysis of Results

As noted previously, the estimates for the Ad Valorem Property Tax and the Fire Protection Service Fee are based primarily on square footage and assessment data obtained from the Monongalia County Assessor's Office and used in current property tax billings to these properties. As such, these amounts are considered to be generally reliable.

The remaining revenues related to Business and Occupation Tax and Safe Streets and Safe Community Municipal Service Fee are based on more subjective assumptions and comparative data, which were documented and assessed above. In addition to the specific assumptions utilized for each of the businesses and properties identified within the proposed annexation area, we considered the overall estimated total in light of other data available to the City.

An overall assessment was performed by comparing total Business and Occupation Tax from Gross Receipts to total Safe Streets and Safe Community Municipal Service Fees for both the City of Morgantown and the proposed annexation area. This relationship was deemed to be a meaningful statistic as many companies measure revenue levels relative to employment levels. While different industries have significantly different norms for revenue per employee, we expect these differences to blend over a large population of businesses.

For the proposed annexation area, we measured the total amount of estimated gross receipts tax in relation to the total estimate of municipal service fees. This yielded a ratio of 3.1:1 from the totals at Exhibit 1. The City's current ratio is also approximately 3.1:1, using estimated annual gross receipts tax revenue of \$14,000,000 and estimated annual municipal service fee revenue of \$4,500,000.

The computed ratio is in line with the revenue information pertaining to the City's current tax collections and supports the reasonableness of the assumptions used in the calculations for the gross receipts tax and the municipal service fees and the resulting estimated totals.

Summary of Results – City Services

The proposed annexation area represents an increase of approximately 3.83 square miles, or 36% of the City's current area. We identified the following City services that would likely be impacted as a result of the expanded City boundaries:

1. Police Department
2. Fire Department
3. Code Enforcement Department
4. Street Department
5. Administrative Departments

The proposed annexation area does not currently benefit from these more robust City services. Annexation of these properties will extend the City's services into these areas, which should improve the area and increase property values (though such an amount has not been presented here). The estimated increase in costs to the City for each of these expanded services is presented in Exhibit 1 and was developed from information obtained through correspondence with the various department heads. An overview of each department's anticipated cost impact is described below; a summary of the calculations is presented in Table 1 at Exhibit 8.

Police Department

The Police Department currently employs approximately 71 police officers and 12 support staff. The expanded area will require additional direct staffing and equipment within the Police Department in order to provide the same level of service to the annexation area as is currently provided to City residents and businesses, without any negative impact on the existing services. Significant efficiencies, though, are expected to be achieved due to the improved geographic boundaries of the City, as existing patrol routes and call responses pass through large portions of the proposed annexation area (see Exhibit 9). Call volume would be expected to increase in approximate proportion to the increase in geographic area; however, it is expected that some increase in volume can be absorbed by the existing complement of personnel.

The City estimates that five additional officers will enable the Police Department to serve the proposed annexation area. This estimate is supported by a comparison to the commitment of personnel resources that is currently allocated to this same area by Monongalia County. The City is also budgeting for a 30% increase in its current level of overtime. This equates to an additional two to three officers. There is not an anticipated need for corresponding increases in support services, as the increased call volume can be absorbed by the existing support staff.

The cost estimate also includes vehicles and other equipment that would be needed in light of the increased pool of officers, as well as an increase in other general departmental costs.

The projected increase in budgeted expenses for the Police Department of \$1,030,000 is proportionately less than the increase in City area due to the efficiencies described above, resulting in a lower average cost per property. A summary of the projected budget increase is included at Table 1 at Exhibit 8. This cost estimate does not include any anticipated capital expenditures related to a long-term development plan to add a satellite office. Future capital plans are discussed in the Fire Department section below and in Exhibit 1.

Fire Department

The Fire Department currently employs approximately 55 emergency responders, divided into three crews, plus 7 administrators, including the fire chief, Fire Marshal and Operations Captain. The expanded area will require additional direct staffing and equipment within the Fire Department in order to provide the same level of service as is currently provided to City residents and businesses.

With the annexation, there would be an immediate need for an additional four emergency responders, which is estimated to cost \$360,000 including related equipment. The City has also assumed a 30% increase in the current level of overtime, due to the increase in geographic area and the anticipated increase in emergency responses, and an increase in other general departmental costs due to the increase in size of the department.

In addition, the City expects that the annexation would result in an immediate need for a new fire engine, which represents a one-time cost associated with the proposed expansion of the City. The total estimate for initial cost increases is \$991,000, as detailed in Table 1 at Exhibit 8.

Significant efficiencies are expected to be achieved due to the improved geographic boundaries of the City (see Exhibit 9) and the ability to absorb some additional increase in volume with the existing complement of personnel. As such, the projected increase in budgeted annual expenses for the Fire Department is less than the increase in City area, resulting in a lower average cost per property. An analysis of the projected budget increase is included in Table 1 at Exhibit 8.

The City also believes that a new fire station will be warranted to properly serve the expanded City footprint in the long term. Through discussion with the City, the project budget for a new fire station, with additional space for a satellite police station, would be approximately \$5,500,000 and additional fire vehicles would be approximately \$1,800,000. Such a project would be expected to occur within three to five years. Manning the new fire station would require a crew of fifteen with an annual cost of approximately \$1,500,000. The results of this annexation study, as presented in Exhibit 1, show that the revenues and fees generated by the proposed annexation area would support the increased annual costs, and that surplus funds would be available to fund, at least in part, the necessary capital expenditures.

Code Enforcement Department

The Code Enforcement Department currently employs ten inspectors and officers. The expanded area will require additional staffing related to ensuring that buildings and rental units within the proposed annexation area are safe for occupation. This is done through the issuance of building permits and demolition permits, property maintenance inspections, and routine rental housing inspections.

The expansion of the city's footprint will result in additional code enforcement services being needed for the residential and commercial properties in the proposed annexation area. The City estimates the addition of two inspectors, along with related vehicles and other departmental costs. The total budgeted increase of \$174,000 is included in Table 1 at Exhibit 8.

Street Department

The Street Department is responsible for providing the community with a safe and efficient road system. The expanded area will require additional staffing and equipment related to ensuring that the approximately 43 miles of roads within the proposed annexation area are maintained and safe for the residents of Morgantown

and those who are employed within the City. Costs associated with fulfilling these responsibilities are a direct function of the amount of roads being maintained and available funding for street paving and related costs stems directly from the Safe Streets and Safe Communities Municipal Service Fee ("MSF").

An analysis of the projected budget increase is included in Table 1 at Exhibit 8 and consists of two additional truck drivers and proportionate increases in overtime and salt treatment and other general departmental costs, altogether totaling \$240,000. Additional costs for street paving and related costs were estimated at \$560,000 for this annexation area.

In addition to the above recurring costs, the City anticipates the need for two additional plow trucks to service the expanded area, which is estimated to cost \$210,000. The total estimate for initial cost increases in the Street Department is \$1,010,000, as detailed in Exhibit 8.

Administrative Departments

The increases in the various City services noted above will also impact the administrative functions that support these service departments. Additional staffing will be needed to serve properly the new resident and business taxpayers as well as the increased administrative needs of the expanded departments noted above. An analysis of the projected budget increase is included at Table 1 at Exhibit 8 and consists of an accounting/revenue manager and a planning and zoning consultant, along with other general costs, totaling \$235,000.

Analysis of Results

The cost estimates were discussed with the City to confirm that such amounts were derived using comparable and current information regarding the various staff positions, including applicable taxes and benefits. Other costs for vehicles and equipment were likewise derived from recent purchases for similar equipment or from information gathered during the development of the City's long-term capital plan.

The total projected costs of \$3,440,000, as presented in Table 1 at Exhibit 8, represent the additional costs that are estimated to be incurred by the City in the first year following the proposed annexation and include certain initial, nonrecurring expenditures for equipment. Conversely, this cost increase does not include other anticipated future costs associated with an expansion of the Fire Department to a fourth station and the eventual replacement of vehicles and equipment.

Table 2 at Exhibit 8 reconciles the total projected initial cost increases summarized in Table 1 to the long-term normalized annual cost increases associated with the proposed annexation. The total adjusted annual cost increase of \$4,297,000 includes replacement reserves that represent funds set aside for future expenditures rather than actual annual cash outlays. The costs in this table are presented in current dollars and do not include any effects of inflation or other cost escalation.

Limitations and Restrictions

This report does not present any direct or indirect impact on services not specifically described above, including water/sewer and trash service or other services administered by the Morgantown Utility Board. Such matters were contemplated and determined to have no significant financial impact on the City or the residents and businesses within the proposed annexation area.

This report is intended solely for use by the Council of the City of Morgantown and its designees for the purposes described in the Objective and Scope section of this report and should not be used for any other purpose.

Sincerely,

Grossman Yanak & Ford LLP

The City of Morgantown

Exhibit 1 – Summary of Estimated Revenues and Cost Increases

The total projected revenue from properties included in the proposed annexation area is estimated to be \$7,807,742. Refer to the various sections within this report for further details regarding the calculation of each tax or fee.

Tax / Fee Category	Projection
Business and Occupation Tax – Gross Receipts	\$ 2,587,090
Safe Streets and Safe Communities Municipal Service Fee	\$ 1,061,424
Business and Occupation Tax – Residential Rental Property Gross Receipts	\$ 452,335
Business and Occupation Tax – Commercial Rental Property Gross Receipts	\$ 282,402
Ad Valorem Property Tax - Municipal Levy	\$ 2,454,641
Fire Protection Service Fee	\$ 969,850
Total Projected Revenue	\$ 7,807,742

The total projected cost increase for services provided relating to the proposed annexation area is estimated to be \$3,440,000. Refer to Table 1 at Exhibit 8 for further details regarding the calculation of the estimated service increases.

City Service Area	Projection
Police Department	\$ 1,030,000
Fire Department	\$ 991,000
Code Enforcement	\$ 174,000
Street Department	\$ 1,010,000
Administrative Departments	\$ 235,000
Total Projected Costs	\$ 3,440,000

The net projected revenues over costs is approximately \$4,400,000. In addition to the projected annual costs noted above, the City will likely consider additional costs for capital expenditures in order to achieve long-term service objectives. Potential capital needs include a satellite public safety building to house additional police staff, a new fire station and additional fire equipment, as well as sidewalks or road safety improvements. A portion of any surpluses generated through annexation would enable the City to make additional investments into the Capital Escrow Fund, which would provide resources for such capital projects.

Further, the above projections result from various estimates and actual results may differ significantly. For illustrative purposes, a 20% unfavorable variance in both revenues and expenses would reduce the projected surplus to approximately \$2,100,000. We believe the development of these estimates limits the range of probable outcomes to a reasonable level.

The City of Morgantown

Exhibit 2 – Business and Occupation Tax – Gross Receipts (Non-rental Business Activities)

The Business and Occupation Tax – Gross Receipts is an annual business tax applied to the gross receipts of business activities conducted within the City of Morgantown. Tax rates range from 0.15% to 2.0% depending on the nature of the business activity. In order to compute the estimated amount of potential new revenue from this tax, a listing of all businesses within the proposed annexation area was compiled, which is included at Appendix I. Estimated figures for gross receipts were derived from a variety of sources, including public filings, comparable businesses located within the City of Morgantown (and for which gross receipts information was available to the City), and Internet research using Manta.com. Adjustments were judgmentally applied as considered necessary to reflect the relative sizes of the businesses or to account for otherwise incomplete information.

The total projected gross receipts tax from businesses (excluding commercial and residential rental activity) included in the proposed annexation area, broken down by business activity, is estimated to be \$2,587,090, computed as follows:

Projected Gross Receipts Tax by Business Classification

Activity	Gross Receipts	Tax Rate	Gross Receipts Tax
Wholesaling	\$ 7,980,000	0.15%	\$ 11,970
Manufacturing	6,000,000	0.30%	18,000
Retail	219,724,000	0.50%	1,098,620
Restaurant	38,270,000	0.50%	191,350
Rental	7,990,000	1.00%	79,900
Service	109,325,000	1.00%	1,093,250
Bank	9,400,000	1.00%	94,000
Contracting	-	2.00%	-
Total	\$ 398,689,000		\$ 2,587,090

There were five businesses within the "Contracting" classification, but none were assigned an estimated gross revenue amount in the data provided.

Due to the significant degree of estimation applied to the above calculation, we considered the sensitivity of the calculation to changes in estimates by analyzing the top 10 businesses by projected gross receipts tax. Approximately 50% of the projected tax is attributable to these top 10 businesses.

Comparative business information or data available on Manta.com was used for the other businesses in the top 10 listing, as noted below:

Top 10 Businesses by Gross Receipts Tax	Estimated Gross Receipts	% of Total Estimated Gross Receipts	Primary Information Source	Est. Gross Receipts Tax
Grocery #1	\$ 50,000,000	12.53%	Comparison	\$ 250,000
Auto Sales #1	35,000,000	8.77%	Comparison	175,000
Auto Sales #6	35,000,000	8.77%	Comparison	175,000
Attorney #1	8,000,000	2.01%	Comparison	80,000
Medical #1	7,000,000	1.75%	Manta	70,000
Printing #1	12,200,000	3.06%	Manta	61,000
Convenience Store #1	12,000,000	3.01%	Comparison	60,000
Mobile Home Sales #1	10,500,000	2.63%	Manta	52,500
General Service #30	4,500,000	1.13%	Manta	45,000
Rental #2	3,500,000	0.88%	Manta	35,000
Total in Top 10	\$ 177,700,000	44.54%		\$ 1,003,500

Given the significant amount of the total gross receipts tax projection that pertains to these top 10 businesses, and the available information supporting these estimated revenue figures, it is likely that the overall projection for the Business and Occupation Tax – Gross Receipts is reasonably conservative.

Additional information regarding the specific estimates of gross receipts by business is included at Appendix I.

The City of Morgantown

Exhibit 3 – Safe Streets and Safe Communities Municipal Service Fee

The Safe Streets and Safe Communities Municipal Service Fee is an annual business tax of \$156 per employee working within the City of Morgantown. In order to compute the estimated amount of potential new revenue from this fee, a listing of all businesses within the proposed annexation area was compiled and is included at Appendix I. Estimated figures for employee count were assigned to each of these businesses based on a variety of sources, including corporate websites, comparable businesses located within the City of Morgantown (and for which employment information was available to the City), and Internet research using Manta.com. Other judgmentally applied estimates were also used by the City in the absence of directly relevant or credible employment information.

The total projected Safe Streets and Safe Communities Municipal Service Fee is estimated to be \$1,061,424, broken down by area as follows:

Area	Number of Businesses	Number of Employees	Fee per Employee	Total Estimated Fee
Chestnut Ridge Road	105	3,952	\$ 156	\$ 616,512
Hartman Run	15	93	156	14,508
Mileground	72	505	156	78,780
Scott Avenue	32	732	156	114,192
Suncrest Unincorporated	6	24	156	3,744
Suncrest Towncenter	68	900	156	140,400
University/Greenbag	69	598	156	93,288
Total	367	6,804		\$ 1,061,424

Due to the significant degree of estimation applied to the above calculation, we considered the sensitivity of the calculation to changes in estimates by analyzing the top 10 businesses by employee count. Approximately 43% of the total projected tax is attributable to two major employers. The employee figures for these two businesses have been compared to information at Manta.com and publicly available benefit plan filings, as well as corporate website information and published news articles. We consider these two estimates to be conservative. Manta information was also available for most other businesses in the top 10 listing, as noted below:

Top 10 Businesses by Employees	Estimated Number of Employees	% of Total Projection	Primary Information Source	Estimated Fee
Tax Exempt #5	2,000	29.39%	Manta	\$ 312,000
Tax Exempt #7	600	8.82%	Manta	93,600
Distribution #1	300	4.41%	Comparison	46,800
Grocery #1	175	2.57%	Comparison	27,300
Medical #1	135	1.98%	Manta	21,060
Medical #14	100	1.47%	Manta	15,600
General Service #1	100	1.47%	Manta	15,600
Tax Exempt #1	100	1.47%	Comparison	15,600
Printing #1	80	1.18%	Manta	12,480
Hotel #2	80	1.18%	Comparison	12,480
Total in Top 10	3,670	53.94%		\$ 572,520

Given the significant amount of the total municipal service fee projection that pertains to these top 10 businesses, and the available information supporting these estimated employment figures, it is likely that the overall projection for the Safe Streets and Safe Communities Municipal Service Fee is generally reasonable and reliable for purposes of this evaluation.

Additional information regarding the specific estimates of employees by business is included at Appendix I.

The City of Morgantown**Exhibit 4 - Business and Occupation Tax – Residential Rental Property Gross Receipts**

The total projected gross receipts tax from residential rental property included in the relevant territory is estimated to be \$452,335. This amount results from the average rent per square foot multiplied by the total square footage per property type according to Appendix II, which is demonstrated below.

Property Type	Total Square Footage	Average Monthly Rent / Sq. Ft.	Potential Annual Rental Income	Occupancy Rate	Estimated Annual Rental Income	Tax Rate	Estimated Gross Receipts Tax
Apartment	3,779,516	\$ 0.79	\$ 35,829,812	87%	\$ 31,171,936	1%	\$ 311,719
Condominium	137,783	0.94	1,554,192	87%	1,352,147	1%	13,521
Mixed Residential	234,899	0.94	2,649,661	87%	2,305,205	1%	23,052
Residential 1&2	1,021,498	0.94	11,522,497	87%	10,024,572	1%	100,246
Residential 3&4	38,687	0.94	436,389	87%	379,658	1%	3,797
Total	5,212,383		\$ 51,992,552		\$ 45,233,518		\$ 452,335

In our procedures, we found the average rent per square feet for condominiums, mixed residential units, and residential 3 and 4 units to be inaccurate due to a low amount of available data points. For these calculations, we applied the residential 1 & 2 average rent per square foot rate to these units.

According to our procedures, we noted that a majority of the condominiums listed in Appendix II are not income-generating properties. We researched the specific properties using Zillow.com to analyze whether the units are usually rented or purchased. We found that nearly 64% of the condominiums are not available for rent at this time, nor have they been available for rent in the past. Therefore, for the purpose of our calculations, we pro-rated the total square footage from Appendix II for condominiums by 36% to determine the estimated tax base applicable for the income-generating condominium properties.

Estimated gross receipts on the remaining square footage was taxed at a rate of 1% based on current business and occupation tax rates for rental activity.

The City of Morgantown

Exhibit 5 - Business and Occupation Tax – Commercial Rental Property Gross Receipts

The total projected gross receipts tax from commercial rental property included in the relevant territory is estimated to be \$282,402. This amount results from the average rent per square foot multiplied by the total square footage per property type according to Appendix III, which is demonstrated below.

Property Type	Total Square Footage	Rental Estimate	Estimated Rental Area	Average Annual Rent / Sq. Ft.	Estimated Annual Rental Income	Tax Rate	Estimated Gross Receipts Tax
Office / Retail	1,857,083	75%	1,392,812	\$ 16.92	\$ 23,566,379	1%	\$ 235,664
Industrial	778,961	50%	389,481	12.00	4,673,772	1%	46,738
Tax Exempt	918,476	0%	-	N/A	N/A	1%	N/A
Total	3,554,520		1,782,293		\$ 28,240,151		\$ 282,402

We note that not all commercial properties listed in Appendix III are held for lease. We identified certain specific properties that were likely to not be subject to lease based on the size of the property and the current usage. The square footage figures presented above have been reduced for these properties (see Appendix III). In addition, a general reserve was applied to the remaining square footage to account for the estimated portion of these properties that are owner-occupied and generating rental income. Estimated gross receipts on the remaining square footage was taxed at a rate of 1% based on current business and occupation tax rates for rental activity.

Rates per square foot were based on an average of rental rates for other commercial properties within the same geographic area, which were obtained from LoopNet.com. A summary of the property information obtained from LoopNet.com is as follows:

Office / Retail property available for rent according to LoopNet:

Address	Square		
	Feet	Price / SF	Avg. Rent
200 Fort Pierpont	1,835	\$ 22.00	\$ 40,370

The City of Morgantown

Exhibit 6 – Ad Valorem Property Tax - Municipal Levy

	Total Tax Assessment per Appendix IV	Municipal Levy Rate	Municipal Levy
Class II Property	\$ 216,581,880	0.25%	\$ 541,455
Class IV Property	382,637,170	0.50%	1,913,186
Total	\$ 599,219,050		\$ 2,454,641

The Ad Valorem Property Tax – Municipal Levy is an additional assessment for properties located within the City of Morgantown and is based on assessed property values and the class of property. These amounts and classifications were obtained from the data at Appendix IV, which is used for purposes of the state and county levies and is therefore considered to be accurate. The applicable municipal levy rates were applied to the total assessment value of each property class to determine the total municipal levy pertaining to the properties within the proposed annexation area.

The figures above exclude properties that were classified within the data obtained from the Monongalia County Assessor's Office as "Exempt" or "Public Utilities", as listed at Appendix IV.

The City of Morgantown
Exhibit 7 - Fire Protection Service Fee

	Square Footage	Rate per Square Foot	Total Fee
1 - 4 Floors	12,661,232	\$ 0.0766	\$ 969,850
5+ Surcharge	N/A	0.0484	N/A
Total	12,661,232		\$ 969,850

The Fire Protection Service Fee is a flat fee per square foot of property and is assessed on all property types. The square footage noted above was taken from the annexation data at Appendix IV.

In addition to the base fee of \$0.0766 per square foot, there is an additional surcharge of \$0.0484 per square foot for structures that have more than four floors. The surcharge is assessed only on space that is above the fourth floor. Information regarding the square footage that would be subject to this surcharge was not readily available; however, we noted that this surcharge would likely apply to only a few structures in the proposed annexation area and would therefore have an insignificant impact on the total estimated service fee. As such, an estimate for the surcharge was not included in the above table.

The City of Morgantown
Exhibit 8 – Impact on City Services

Table 1 below presents the total projected cost increase for services provided relating to the proposed annexation area, which is estimated to be \$3,440,000. Cost breakouts by department are displayed below, along with the grand total for all departments.

Table 1

Police Department	Projected Cost	Fire Department	Projected Cost	Code Enforcement	Projected Cost
Police Officers - 5 at \$80,000 ea.	\$ 400,000	Fire Fighters - 4 at \$80,000 ea.	\$ 320,000	Rental Housing Inspector	\$ 62,000
30% Increase in Overtime	180,000	30% Increase in Overtime	81,000	Residential/Commercial Building Inspector	62,000
Police Vehicle - 5 at \$60,000 ea.	300,000	Fire Fighter Equip - 4 at \$10,000 ea.	40,000	Vehicles	30,000
Officer Equipment - 5 at \$10,000 ea.	50,000	Fire Engine	450,000	Other	20,000
Other	100,000	Other	100,000		
Total	\$ 1,030,000	Total	\$ 991,000	Total	\$ 174,000

Street Department	Projected Cost	Administrative Departments	Projected Cost	All Departments	Projected Cost
Truck Drivers - 2 at \$60,000 ea.	\$ 120,000	Accounting/Revenue Manager	\$ 90,000	Police Department	\$ 1,030,000
30% Increase in Overtime	15,000	Planning and Zoning Consultant	125,000	Fire Department	991,000
30% Increase in Salt Treatment	30,000	Other	20,000	Code Enforcement	174,000
Fully Equipped Plow Trucks	210,000			Street Department	1,010,000
Street Paving and related costs	560,000			Administrative Departments	235,000
Other	75,000				
Total	\$ 1,010,000	Total	\$ 235,000	Grand Total	\$ 3,440,000

This table includes nonrecurring charges for the purchase of additional vehicles and equipment and should, therefore, not be equated with an annual cost associated with the proposed annexation. Table 2 below presents a reconciliation of the total projected

cost increase in Table 1 to a long-term annualized cost of services related to the proposed annexation area. The significant reconciling items include adjustments for capital purchases and replacement reserves, as well as the planned expansion of the Fire Department and Police Department facilities.

Table 2

	Police Department	Fire Department	Code Enforcement	Street Department	Administrative Departments	All Departments
INITIAL COSTS (FROM TABLE 1 ABOVE)	\$ 1,030,000	\$ 991,000	\$ 174,000	\$ 1,010,000	\$ 235,000	\$ 3,440,000
LESS NONRECURRING COSTS:						
Vehicle Purchases	300,000	450,000	30,000	210,000	-	990,000
CURRENT RECURRING COSTS	730,000	541,000	144,000	800,000	235,000	2,450,000
PLUS FUTURE ANNUAL COSTS:						
Vehicle Replacement Allowance	60,000	150,000	6,000	21,000	-	237,000
Building Replacement Allowance	20,000	90,000	-	-	-	110,000
Firefighters - 15 at \$100,000 ea.	-	1,500,000	-	-	-	1,500,000
FUTURE RECURRING COSTS	80,000	1,740,000	6,000	21,000	-	1,847,000
TOTAL RECURRING FUTURE COSTS	\$ 810,000	\$ 2,281,000	\$ 150,000	\$ 821,000	\$ 235,000	\$ 4,297,000

The replacement allowances represent annual amounts to be set aside for the eventual update or replacement of facilities, vehicles and other equipment. Replacement lives of 50 years for facilities and 5 to 15 years for vehicles were applied to the vehicles in Table 1 above plus the anticipated future capital expenditures for a new fire/police station and emergency vehicles, as described in the Fire Department section of the Summary of Results on page 8. The actual timing and amounts of funding for the replacement reserves would be subject to the City's fiscal policies.

The addition of a fourth fire station would also require the hiring of a fire crew of approximately 15, the annual cost of which is included in Table 2.

The City of Morgantown

Exhibit 9 - Overview of Proposed Annexation Area

Existing city limits are represented in blue. The areas covered in this annexation study are represented in orange. This map illustrates the objective of achieving a more contiguous City footprint.

The City of Morgantown
**Supplemental Data for Business and Occupation Tax - Gross Receipts and
Municipal Service Fee**

Note: This information was utilized for the calculations of Gross Receipts tax and Municipal Service Fees on businesses within the proposed annexation area, as shown in Exhibits 2 and 3.

The City of Morgantown**Supplemental Data for Business and Occupation Tax - Gross Receipts on Commercial Rental Property**

Note: This appendix provides detailed information that was utilized in the calculations of Gross Receipts tax related to the rental of commercial properties within the proposed annexation area, as shown at Exhibit 5. The properties listed below were extracted from the data located at Appendix IV, which was obtained from the Monongalia County Assessor's Office. These properties were listed as Tax Class 3 (income-generating) and had a land use other than residential (residential properties are considered at Appendix II). They were further subdivided into Office/Retail and Industrial/Warehouse categories for which average rental rates were determined and applied. Certain larger properties in each category were specifically identified and excluded from the square footage tabulations based on an assessment that such properties were likely non-rental in nature and would not generate gross receipts tax revenues.

Office / Retail properties obtained from Assessor's Office:
